

For everything that you need in telemedicine....

ABOUT US

We have been providing telemedicine consultations and support since 2003. Our guiding principle is delivering quality and reliability, with a few truly unique (happy!) surprises in the mix.

We are turnkey

You can leave it to us. We take care of the details so that you can sit back and await the opening of your Telemedicine business. Or pick and choose what you need. We are there to help...both ways!

We are Glocal

Our team is dedicated. We work for India as well as the world. We don't bother taking time off, because we want to make sure that you relax - and succeed without any hassles!

Strategy, Software, Devices, setup

We can make sure that you get it all whether it be strategy, advice, software, hardware, devices, etc. We supply, we implement, we integrate and we support. Any thing else? Let us know and we will try really hard for it!

Telemedicine Shop

Turn-Key or Pick-n-choose

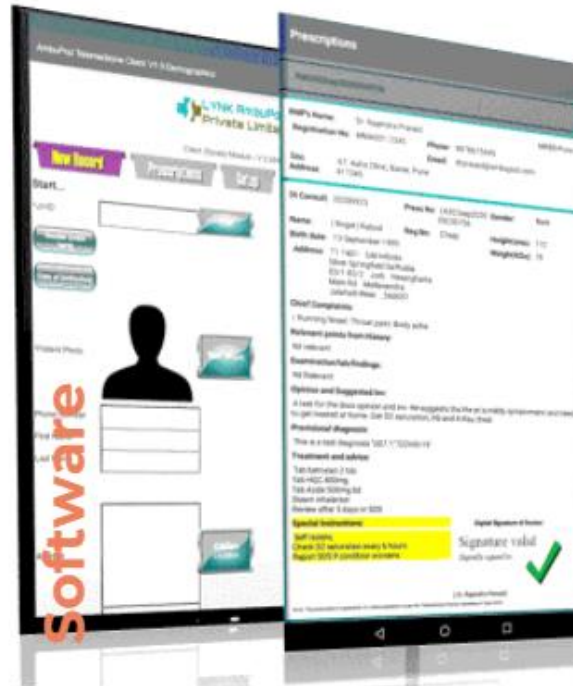

Telemedicine Kits

Everything you need to set up a telemedicine-spoke. A tablet PC with touch-friendly and easy-to-use telemedicine software, medical devices ready for use for primary and preventive care, consumables to start with, Online Training, remote and onsite support, and additional equipment if required.

Here is a snip of a long list:

10" Android tablet, AmbuApp Telemedicine client software, Electronic BP, Pulseoxymeter, Infrared thermometer, digital stethoscope, fetal monitor, micro ECG machine, digital ENT scope, Blood sugar monitor, portable nebulizer, and much more...

Telemedicine Software

We provide licenses for both, the client as well as the hub software. Depending on the need you are can select any number of licenses depending on the number of doctors you have at your Telemedicine Hub and the number of health-workers you have at your remote stations (called a 'spoke' or 'spokes'). Our software is cloud-based, very touch-friendly and the client can work on and off-line. You can also request for additional modules, server data space, or customizations.

For details of our software, please email contact@hicitconsultant.com

Custom-built

Select exactly what you need, and we put together a kit specific to your requirements. We will then train your team and set up your project for you. You simply need to focus on your core areas and leave the rest to us. email us at contact@hicitconsultant.com
